EXPERIENCE

Inoptra

DESIGNATION: Team lead

July 2023- Current

With proficiency across a spectrum of web development projects, I bring extensive experience in

frameworks such as Laravel, WordPress, Core PHP, and CI. My specialization lies in crafting and maintaining React.js Web Components, elevating user interfaces to deliver seamless and engaging experiences. Demonstrating a keen aptitude for creating robust APIs on Node, I ensure smooth data interaction within applications. A notable

contribution includes significant involvement in WordPress Plugin development, where I have tailored functionalities to meet project specific requirements. My expertise extends to DevOps practices, including a deep understanding of continuous integration (CI) and continuous deployment (CD), coupled with adept server maintenance. This holistic skill set allows for the successful execution of projects from the development phase through deployment. In every project undertaken, emphasis is placed on efficiency, reliability, and optimal performance across the entire software development lifecycle. This commitment extends to the incorporation of best practices, ensuring that the end result aligns seamlessly with the client's objectives. My comprehensive skill set, cultivated through diverse experiences, positions me as a versatile and capable professional, ready to navigate the complexities of modern web development with proficiency and dedication.

Swazei

DESIGNATION: Team Lead

Mar 2020- July 2023

Proficient in executing web development projects using Laravel, WordPress, Core PHP, and CI, ensuring robust and tailored solutions. Led a team in the development of a Point of Sale (POS) system within the MERN Stack, showcasing leadership and technical expertise. Contributed to WordPress Plugin development, enhancing website functionalities. Demonstrated adeptness in DevOps practices, including continuous integration (CI), continuous deployment (CD), and effective server maintenance. Specialized in Shopify App Development, ensuring seamless e-commerce solutions. Expertise extends to DevOps in AWS.

Multi Dots

DESIGNATION: Sr. Full Stack Sr Developer

April 2019 -Dec 2019

Specialized in crafting bespoke WordPress themes and plugins, contributing to dynamic website development. Proficient in creating feature-rich websites, including e-commerce platforms, using WordPress. Expertise extends to seamless hosting, including the transfer of sites from company subdomains to client domains, ensuring a smooth and efficient transition. Adept in DevOps practices, encompassing continuous integration (CI), continuous deployment (CD), and comprehensive server maintenance. This proficiency ensures the optimal performance, security, and reliability of websites, emphasizing a holistic approach to development and maintenance.

Velocity Local

DESIGNATION: Full Stack Sr Developer

Mar 2014 -Nov 2016

Specialized in crafting customized WordPress themes and plugins, contributing to dynamic website development. Proficient in CodeIgniter and Laravel for robust project development. Extensive experience in Java project development, showcasing versatility. Expertise extends to Shopify app development, ensuring seamless e-commerce solutions. Proficient in Git management, facilitating collaborative and version-controlled coding practices. Adept in team management, coordinating and leading successful project executions. Skilled in hosting management, including the smooth transfer of sites from company

subdomains to client domains, ensuring an efficient and secure transition. This comprehensive skill set ensures a holistic approach to project development, team collaboration, and solutions.

Project Undertaken

Project	Role	Project Details	Stacks
Bright Talk	Project development	Learning Platform, https://www.brighttalk.com/ Drive engagement & convert leads. The BrightTALK Channel helps you to create and distribute content, making your brand and messaging discoverable to 30M+ professionals	React,Next js,Nest js, lambda,jenkins
Geegr-Home Service Booking	TL/Sr Developer/Design Arch	Offers a wide range of services including home cleaning, beauty and wellness, appliance repair, plumbing, electrical work, carpentry, painting, and more. Users can book services through the Urban Company app or website, and the platform matches them with verified professionals in their area. Customers can also read reviews and ratings of service providers before booking. Urban Company aims to make it convenient for users to find reliable service professionals for various household needs.	React, Node, Mongo, Express, git, jenkins
A2ZPOS	TL/Sr Developer/Design Arch	The point of sale (POS) or point of purchase (POP) is the time and place at which a retail transaction is completed. At the point of sale, the <u>merchant</u> calculates the amount owed by the <u>customer</u> , indicates that amount, may prepare an <u>invoice</u> for the customer (which may be a cash register printout), and indicates	React, Laravel, Mysql, Express, git, jenkins

		<p>the options for the customer to make payment. It is also the point at which a customer makes a payment to the merchant in exchange for goods or after provision of a service. After receiving payment, the merchant may issue a <u>receipt</u>, as proof of transaction, which is usually printed but can also be dispensed with or sent electronically</p>	
CRM for A2ZPOS	TL/Sr Developer/Design Arch	<p>A CRM (Customer Relationship Management) system integrated with Kanban board functionality allows for efficient management of customer interactions and tasks. It streamlines communication, tracks leads, deals, and customer information, while Kanban boards visualize workflows, making it easy to manage tasks through stages like 'To-Do,' 'In Progress,' and 'Completed.' Together, they enhance productivity, collaboration, and organization in sales and customer management processes.</p>	React, Node, Mongo, Express, git, jenkins
Woocommerce multiple plugins	Sr Developer	<p>On base of condition plugin is charging or giving discount on checkout</p>	Wordpress, PHP
